About

As an enthusiastic individual transitioning into the dynamic field of web development from a non-tech background, I am committed to establishing myself as a proficient web developer. Eager to learn and grow, I have a strong foundation in Front-End development and aim to do same in Back-End Development

Certifications

Full Stack Web Developer (July 2023 – May 2024)

I have successfully completed a comprehensive Full Stack Web Development certification course. This program has equipped me with a robust understanding of both front-end and back-end development, enabling me to build, deploy, and maintain web applications from start to finish.

- Front-End Development: Proficient in HTML, CSS, and JavaScript, with practical knowledge of modern frameworks and libraries such as **React, Next.js**, Tailwind, and Bootstrap for creating responsive, user-friendly interfaces and ensuring cross-browser compatibility.
- Back-End Development: Experienced in server-side programming using Node.js, Express, and MongoDB for database management. Familiar with RESTful API design and development.

Projects :

- **Tic Tac Toe:** Developed an interactive game using **JavaScript, HTML and CSS** implementing player-computer turns and score tracking. Including functionalities like blocking user moves and creating winning moves by computer and displaying winning/draw outcomes via message modal. Implemented features like new game.

- **Todo:** Developed app in **React + Vite and Tailwind** that allows user to add, edit, delete and filters task. The app uses **Local Storage** for data persistence, ensuring tasks are saved for a log time. Features including task filtering (all, pending and completed), editing and a responsive design.

- **Typing Test:** Developed this app in **React + Vite and Tailwind** featuring paragraphs selection from cards. Tracks display Word Per Minute (WPM), errors and backspace usage during typing. Provide real time feedback and results at the end of test.

- **Netflix clone**: (In Progress): Developed this app in **React + Vite and TMDB API** It provides a comprehensive platform for discovering and managing movies and TV shows. The app features a detailed page for each movie or TV show, displaying in-depth information such as overviews, release dates, ratings, trailers, and crew details. Additionally, users can create accounts and do log in.

Work Experience

Asst. Accountant at Shiva Electricals - Dehradun, Uttarakhand (Jan 2022 – Nov 2023)

- Worked as an accountant assistant and computer operator, responsible for accurately entering and updating data in Excel files. Handled administrative tasks like answering phones and responding to emails.
